Brad,

Just as a reminder, I will need a drawing from you showing the easement route that you decide on as well as a calculation of total site area and site area contained within the take area. I cant use the Assessor parcel size because of the property boundary discrepancy that caused this whole thing.

Regards,

Sorry Rick. You have authorization to proceed. Our attorney reviewed the letter you will be sending her and it is sufficient to meet the requirement that she be invited to be present at the appraisal.

Brad,

I was just wondering if you had any idea when I might be given the authorization to proceed on this project. I am trying to line up my work load for September.

Thanks
